

W

W represents two artists, Paz Ulloa and Vinicio Jimenez, working together as a team. Passing their creations between each artist, both add a small part that contributes to whole therefore continuously reinventing the meaning of the piece until it is deemed finished. Process gives way to a constructed comic book-anime universe, fluid and rapidly moving, seen through a youthful gaze. Despite their youth, their talents have been duly noted. W has had several solo shows at prestigious galleries in Costa Rica, as well as having exhibited abroad in Panama, Switzerland, and New York.
