

OLGA SINCLAIR

All of Sinclair's gestures are big. Her work has largesse, ferocity and full sensuality. Sinclair's art enjoys tremendous critical recognition and has been exhibited around the world. Moving beyond the influence and talent of her famous father, Alfredo Sinclair, Olga is the bigger name and stronger presence. With her first public exhibition at the age of 14, Sinclair has since had solo exhibitions in the Miami, London, Madrid, Amsterdam, Jakarta and Buenos Aires. Her art forms a part of the permanent collections of museums in Latin America, the United States and Europe.
