

## Greg Price

Born in Orange, California in 1983, Greg Price graduated from the University of Hawaii with a BA in Art in 2007. He then went on to receive his MFA in sculpture from Tulane University in New Orleans in 2012.

Price is interested in the physical and mental challenges inherent in working with glass. Collaborating with time, gravity and a small team, the steps to creating a single sculpture involve as much failure as success, something the artist whole-heartedly embraces as part of the process. Price uses a tremendous amount of glass in his work, setting the parameters and allowing the raw material to slowly fall in such a way that is both in and out of his control.

Gregory lives and works in Santa Ana, CA at the Logan Creative Arts Complex. He is exhibited locally by saltfineart + RAWsalt, Daniel Fine Art Services as well as the Christopher Martin Gallery in Santa Fe, New Mexico.

### EDUCATION
